

# Technical Data Sheet

## FAST AND EFFICIENT CONETUBE EXTRACTOR DEVICE

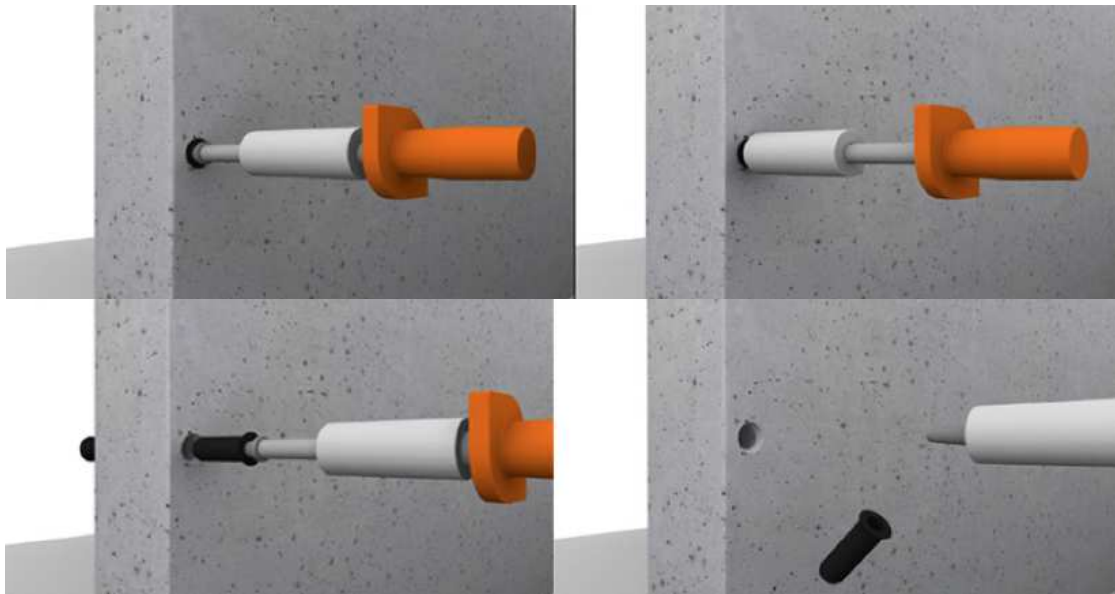

A device for **quickly and efficiently** extracting conetubes bushings. It's easy to use: all you have to do is insert it into the conetube and do a linear displacement with its counterweight. The piece is extracted and then expelled from the tool. The whole operation takes just a few seconds, which means it will **save you a lot of time** in terms of your extraction process. With this fast extraction system, the hole in the formwork will be completely **clean and free of any kind of damage**. This way the hole is ready for a good hermetic seal.

### Technical Specifications:

Weight: 2.10 kg (74 ounces)  
Point Diameter: 19 mm (3/4")  
Counterweight diameter: 48 mm (1 and 7/8")  
Total length: 390 mm (15")

(PAT Pending)

### Legal notices, Limited Guarantee

This information, and in particular, the recommendations related to the application and use of the product, are provided in good faith, based on the current knowledge and experience of JABE, S.L. regarding the products when they are stored, handled, and applied correctly under normal circumstances within their operational lifespan. In practice, possible differences in the materials, supports, and real conditions in the place of application may be such that one cannot use the present document to assume anything specific in terms of savings or usefulness for specific purposes, nor any obligation outside of any existing legal relationship. JABE does not offer any statement or guarantee with respect to the accuracy or correctness of such information and recommendations or with respect to the use of such information for any specific purpose. All requests will be accepted in accordance with the current terms of our General Conditions of Sale and Use policy. Limited Guarantee: JABE guarantees that the product will be free of material and craftsmanship defects. This guarantee is subject to the following conditions: (i) the application and use of the product, as well as the construction standards used in its application, should conform to JABE's recommendations; (ii) the buyer shall bear full responsibility for choosing the correct product for the specific purpose for which they intend to use it. The buyer's sole recourse and the extent of JABE's responsibility for any loss, damage, or harm caused as a consequence of the product (including indemnifications based on contracts, negligence, defects, legal responsibility, or anything else) shall consist of refunding the cost paid by the buyer or replacing the product, at JABE's choosing. This guarantee shall not apply to any product that has been subjected to improper usage, negligence, damage caused by storage, incorrect usage, accidents, or any other harm caused by non-JABE personnel, or any product that has not been stored, handled, and used correctly in accordance with JABE's recommendations. In no case shall JABE be responsible for incidental damages or consequential damages. The buyer and other users of the product expressly accept the terms of this Limited Guarantee, which may only be modified via written agreement between JABE and the buyer.
